

Venice Tilt

The perfect sun umbrella for NZ conditions

SHADE7
premium outdoor living

The perfect outdoor umbrella for tough coastal environments and windy locations

The Venice Tilt outdoor umbrella is the perfect combination of strength, elegance and function, making it the ideal umbrella to complement residential homes. It has been constructed using strong 12mm fibreglass canopy arms that manage windy, harsh conditions. For ease of use the umbrella has been specially fitted with a high grade winder-operated tilt system, which allows for 60 degree canopy tilt. The winder handle tilts the canopy into place, giving you flexible shade coverage for low or high sun.

The Venice Tilt umbrella pole consists of a heavy duty 38mm diameter anodised aluminium pole, which can conveniently be split for easy relocation and storage. The materials used produce a light weight yet robust umbrella, making it the perfect addition to any outdoor home.

Venice Tilt advantages

- Virtually unbreakable fibreglass canopy arms
- Rust-free aluminium and fibreglass frame
- Strong 38mm aluminium pole with a robust 2.2mm wall thickness
- Two-piece pole design for easy transport and storage
- Optional winder-operated 60° tilt
- 3-year residential back-to-base frame warranty*
- Premium European acrylic canvas with a 10-year fade warranty*

*1yr warranty for commercial use

*5yr warranty for commercial use

Venice Tilt features

60° Tilt functionality

Follow the sun throughout the day with the optional 60° tilt function. Easily adjusted using the integrated winder handle, it provides targeted shade when the sun is lower in the sky.

Effortless operation

The Venice Tilt is the only Shade7 umbrella featuring a precision winder handle, making opening, closing and tilting the canopy smooth, effortless and easy to control.

Marine-grade quality

Crafted from premium marine-grade materials including anodised aluminium, stainless-steel fittings, marine-grade acrylic fabric and flexible fibreglass ribs for exceptional resistance to corrosion and the elements.

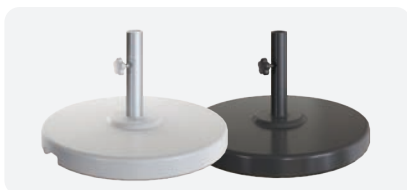

Strong and durable

Every component has been selected for long-lasting performance, delivering outstanding strength, reliability and durability in demanding outdoor environments.

Optional accessories

Concrete filled base – silver/black 25kg

A strong and durable concrete filled plastic base with rust-proof design featuring an aluminium spigot.

Premium wheeled base 25kg

A beautifully designed galvanised steel base featuring a polished stainless steel spigot and wheels.

You can use your umbrella with a freestanding base or install it using our stainless steel removable spigot system.

Protective cover bag (Charcoal)

Highly recommended to protect your umbrella and help extend the life of the canopy fabric.

Concrete filled base – silver/black 40kg (double stacked)

The 25kg concrete-filled base with a 15kg weight upgrade for enhanced stability in more exposed locations.

Premium wheeled base 45kg (double stacked)

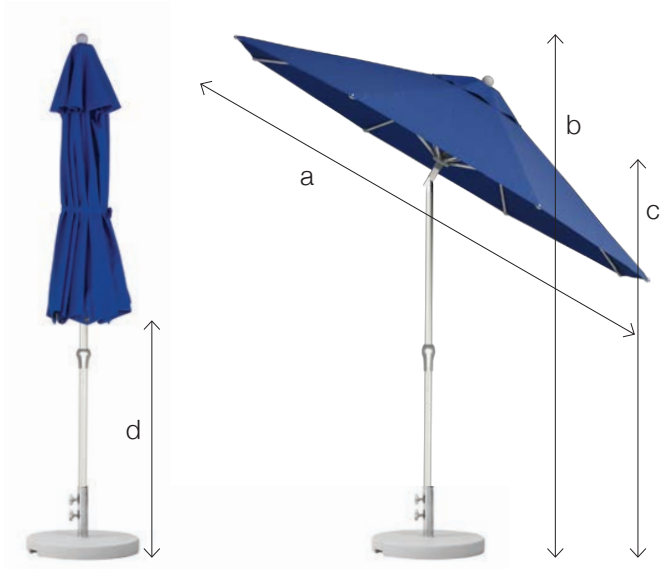

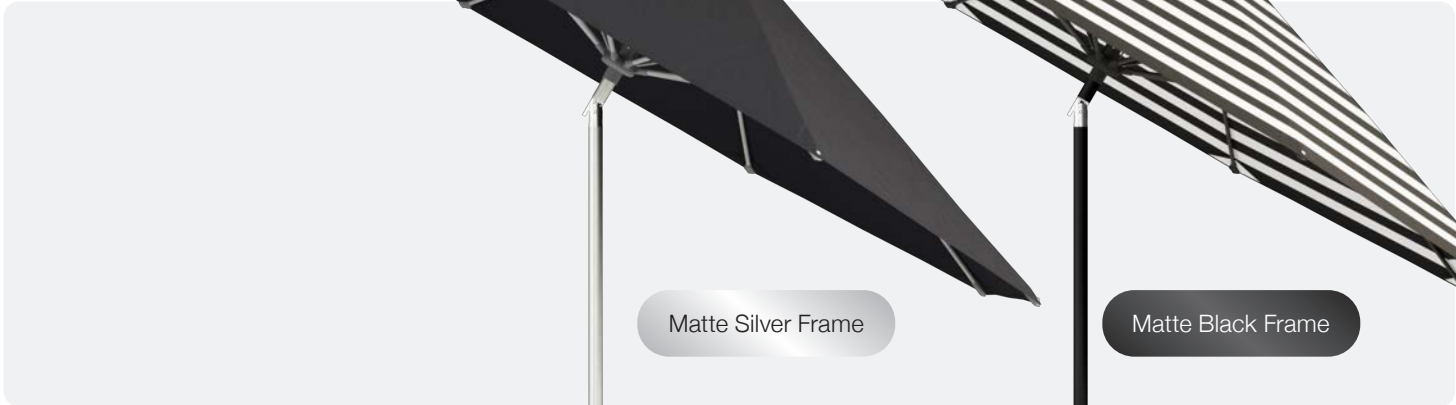

The 25kg premium wheeled base with a 20kg weight upgrade for enhanced stability in more exposed locations.

Installation kit

For installation onto a wooden deck or concrete patio.

Frame options

European made acrylic canvas

Our premium solution-dyed acrylic canvas is backed by a 10-year residential warranty and offers industry-leading performance. It features the highest available colour fastness rating, ensuring long-lasting vibrancy even in harsh UV conditions⁴. With a UPF rating of 80, it provides outstanding protection against harmful ultraviolet rays.
