

Milan

Superior strength and timeless elegance

SHADE7
premium outdoor living

The Milan is an elegant resort quality outdoor umbrella, purposefully created to withstand some of the toughest environments

Built to perform in New Zealand's harshest outdoor environments, the resort-quality Milan combines exceptional strength with timeless design. Heavy-duty fibreglass arms, a robust 50mm anodised aluminium pole and premium marine-grade components provide outstanding durability and stability, while the smooth rope and cam cleat system ensures effortless everyday operation. Ideal for residential, commercial and coastal settings, the Milan is engineered for years of reliable outdoor performance.

Milan advantages

- Marine-grade stainless steel pulleys and components
- Heavy-duty 50mm diameter aluminium pole with a 3mm wall thickness
- Super-strong fibreglass canopy arms for superior strength and flexibility
- Smooth rope and cam cleat system for effortless opening and closing
- Engineered to withstand New Zealand's demanding outdoor conditions
- Premium European acrylic canvas with a 10-year warranty*
- 5-year back-to-base frame warranty

3yr warranty for commercial use

*5yr warranty for commercial use

Proudly designed in New Zealand

Milan features

Wind-rated up to 70kph

Engineered for exposed outdoor environments, the Milan has been independently wind tested to withstand winds of up to 70kph, providing confidence in challenging conditions.

Virtually unbreakable fibreglass arms

Flexible heavy-duty fibreglass arms absorb wind loads without permanently bending or breaking, helping the umbrella withstand demanding everyday use.

Marine-grade materials and construction

Premium marine-grade components – including anodised aluminium, 316 stainless steel hardware and solution-dyed acrylic fabric – provide outstanding resistance to corrosion, fading and harsh coastal conditions.

Built for commercial use

Designed to withstand frequent opening, closing and daily operation, the Milan is ideal for cafés, restaurants, hotels and other high-use outdoor environments.

Large sizes for spacious outdoor living

Available in sizes up to 3.5m octagonal and 3.0m square, the Milan provides generous shade for larger patios, courtyards and commercial outdoor spaces.

Printing & branding

We offer precision screen printing, delivering crisp logos, vibrant colours and accurate colour matching. Using premium UV-resistant inks, our printing is designed to maintain its appearance and minimise fading, even in demanding outdoor environments.

Optional accessories

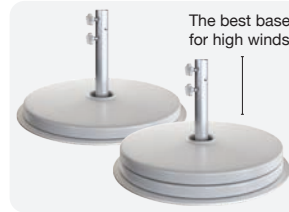

45kg concrete filled base

A durable, cost-effective base for large umbrellas, featuring a rust-proof design with a premium aluminium spigot.

Premium wheeled base 45kg (double stacked)

A beautifully designed galvanised steel base featuring a polished stainless steel spigot and wheels.

Round stackable base 50-75kg

A sleek galvanised steel base with stainless steel spigot. Add 25kg stackable weights on top.

Cover bag

Highly recommended to protect your umbrella and help extend the life of the canopy fabric.

Installation options

Installing your umbrella is the best option for windy or commercial environments. Installation fittings look great and your umbrella will not be able to blow over in the wind. Choose between our deck and concrete patio installation kits, or removable in-ground fittings.

Removable in-ground fitting

For installation in ground. Pipe fitting can be easily removed leaving behind only the flush ground fitting.

Installation kits

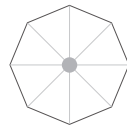

A base plate is securely bolted to your timber deck or concrete patio. The removable spigot then easily fixes to the base plate.

European made acrylic canvas

Our premium solution-dyed acrylic canvas is made in Europe and comes with a 10 year residential warranty and the highest available colour fastness rating of 7-8 out of 8³. It also has the maximum possible UV protection rating of UPF 80, providing excellent sun protection.

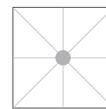

Specifications & technical information

3.5m Octagonal

2.5m Square

3m Square
